Consulting

AN EFFECTIVE INFORMATION SECURITY PROGRAM INVOLVES PROTECTING YOUR ORGANIZATION FROM EMERGING THREAT, WHILE EMBRACING NEW TECHNOLOGIES AND MANAGING DAILY OPERATIONS TO ENSURE COMPLIANCE. COMBINE THESE FACTORS WITH THE DIFFICULT TASK OF HAVING TO FIND AND RETAIN EXPERIENCED SECURITY TALENT WHILE OPTIMIZING FOR CURRENT AND FUTURE BUDGET AND RESOURCES, IT BECOMES EASY TO SEE WHY SECURITY AND RISK GROUPS ARE STRETCHED EXTREMELY THIN.

VantagePoint Consulting provides the experts you need to help you enhance your security posture, reduce your risk, and facilitate compliance efforts. Our consultants are seasoned, highly certified security veterans who can help you assess your security posture, understand your gaps, pursue certification, test and improve your security defenses, design and develop security programs and architecture, and lead key security initiatives on your behalf.

Part Time Staffing

Hiring a CISO is expensive and time consuming, but VantagePoint Consulting can deliver on all CISO responsibilities at fraction of the cost. VantagePoint will provide an unbiased view of your security posture, act as a liaison to auditors, develop comprehensive set of policy and procedure document and develop a security roadmap aligned with your company's business goals. Our experts have extensive experience in designing and conducting customized training on topics of information security controls and safety.

SERVICES INCLUDED:

✔ **Chief Information Security Offices (CISO) – CISO-as-a-Service**

✔ **Security Analyst – Dedicated Part-Time Analyst**

✔ **Documentation Writing**

Security Assessment & Testing

VantagePoint Consulting experts will evaluate the policies and procedures currently implemented in your organization to identify areas of your security program that need improvement and develop remediation plan. We use a risk-assessment process based on guidelines from the National Institute of Standards and Technology (NIST) to identify, quantify, assess, and report on IT-related risks. VantagePoint Consulting offers penetration testing services to identify and prioritize vulnerabilities based on the criticality of the information asset, and severity of the vulnerability and provide recommendations for remediating these vulnerabilities. VantagePoint Consulting also offer services to develop and test Business Continuity and Disaster Recovery plans tailored for your organizational needs and compliance requirements, and ensure that all staff have a good understanding of their responsibilities as defined in the plans.

SERVICES INCLUDED:

✔ **Gap Assessment**

✔ **Risk Assessment**

✔ **Penetration Testing**

✔ **Business Continuity/Disaster Recovery Testing**

Security Architecture

You can count on VantagePoint Consulting to perform a thorough review of security architecture and evaluate how well your business requirements are fulfilled with the current systems in place. Based on first-hand knowledge of industry best practices, compliance requirements, and years of experience on variety of security tools, our experts can develop a robust security architecture that scales as your business changes and grows and that accounts for your organization's risk, compliance and operational requirements. Our expert consultants can help you with the decision of choosing the right technology that will bring the most value to your organization by developing a technology comparison suite. We will ensure that all your security needs are met and you realize the value of your product investment.

SERVICES INCLUDED:

✔ **Architecture Review and Consulting**

✔ **Multi-Year Security Strategy Development**

✔ **Technology Testing and Recommendation**

Auditing

VantagePoint Consulting will conduct security system self-assessment and help you prepare your organization for formal inspection by an independent auditor. Our experts will act as a liaison between your organization and the external auditor and will provide active support in IT audits that are outsourced to external consultants for compliance or certifications. We will evaluate the security posture of all the 3rd party vendors and partners by performing thorough due-diligence on data handling, availability and data confidentiality to make sure you know the potential risks and to help you manage them.

SERVICES INCLUDED:

✔ **Internal Audit**

✔ **Day of Audit Support**

✔ **Vendor Due Diligence**
